

ELECTRICAL ESTIMATOR

Plan Group is currently looking for an Electrical Estimator to join our team of experienced professionals.

As an Electrical Estimator you will coordinate with clients, sub-contractors, and suppliers and leverage your construction industry knowledge to accurately develop complete bids to win projects.

To truly excel in this role you are able to partner and communicate effectively with both internal and external stakeholders to gather information to plan the job, evaluate risk and put out a profitable bid. As an experienced Estimator you understand that you are often required to work within tight timeline and manage multiple priorities but with the pressure also come the reward of coming in first!

As **Electrical Estimator** you will be asked to do the following:

- Review and understand job specifications and drawings and follow through with estimating process to develop competitive bids
- Conduct site/tender walkthrough to cross reference drawings to avoid site interferences and identify proactive solutions.
- Produce material and labour take-off through estimating software to develop accurate quotations.
- Communicate with client to gather information, clarify specifications, wording, etc.
- Coordinate with sub-contractors and suppliers to obtain pricing to include within the final quotation provided to client.
- Participate in closing the bid including bid review meetings, etc.
- Participate in hand over meeting with Project management team after award.

QUALIFICATIONS

- You have a of minimum five (5) years of Estimating experience within the electrical construction industry
- You have an Electrical Engineering degree or diploma or related education and/or trade experience
- You are proficient in Microsoft Office; experience with Accubid Pro and/or Enterprise, Live Count a definite asset
