

PROJECT MANAGER, TECHNOLOGY GROUP (ICAT)

Plan Group Inc. is a leader in the construction industry providing project management and engineering solutions on various leading edge projects in the healthcare, transportation and commercial construction industry. We have been an integral partner in the design, engineering and implementation of building technology solutions and integration

We are now looking to expand and are looking for a Project Manager to join our team.

As Project Manager, within the Technology Group you will be responsible for supervising the construction and installation of technology solutions. Taking a lead role in managing large multi-million dollar projects, you will be fully accountable for the planning, executing, and delivery of projects on time and within budget.

To truly excel in this role you must be are proficient in interpreting financial documents and have the ability to exercise independent judgement to initiate cost control measures when needed. You have the ability to leverage your strong communication and leadership skills to positively influence others and drive for results.

As **Project Manager, ICAT Transportation** you will be asked to do the following:

- Effectively carry out Plan Group's project management procedures from initial award of job to conclusion (Project schedule, change orders, as-built drawings, close out documents, etc.)
- Work with multiple stakeholders to ensure project implementation is executed in a timely and efficient manner, maintaining integrity of design and project schedule.
- Work closely with the management team to ensure feasibility and costing of projects according to budget.
- Frequently communicate the technical aspects and regular site activities of the project with relevant stakeholders' to effectively update and act on pertinent information.
- Interface with consulting engineers to review and provide recommendations regarding implementation of the design and reports
- Adhere to and carry out all safety requirements by client, as well as follow all of Plan Groups safety guidelines.
- Contribute to technical proposals and coordinate with team members to effectively develop RFQ/RFP submissions and/or related tender documents on the pursuit of large transportation projects.

QUALIFICATIONS

- You have a minimum of five (5) years of related Project Management experience within the electrical construction industry
- You have related post-secondary education; university degree in engineering preferred
- Knowledge of Accubid software and/or Estimating experience is considered an asset
- Computer literate with proficiency in Microsoft Office. Experience utilizing scheduling software preferred (i.e. Microsoft Project and/or Primavera)
- You hold or are working towards a Project Management Professional (PMP) designation or equivalent considered an asset
